What is an Autobiography?

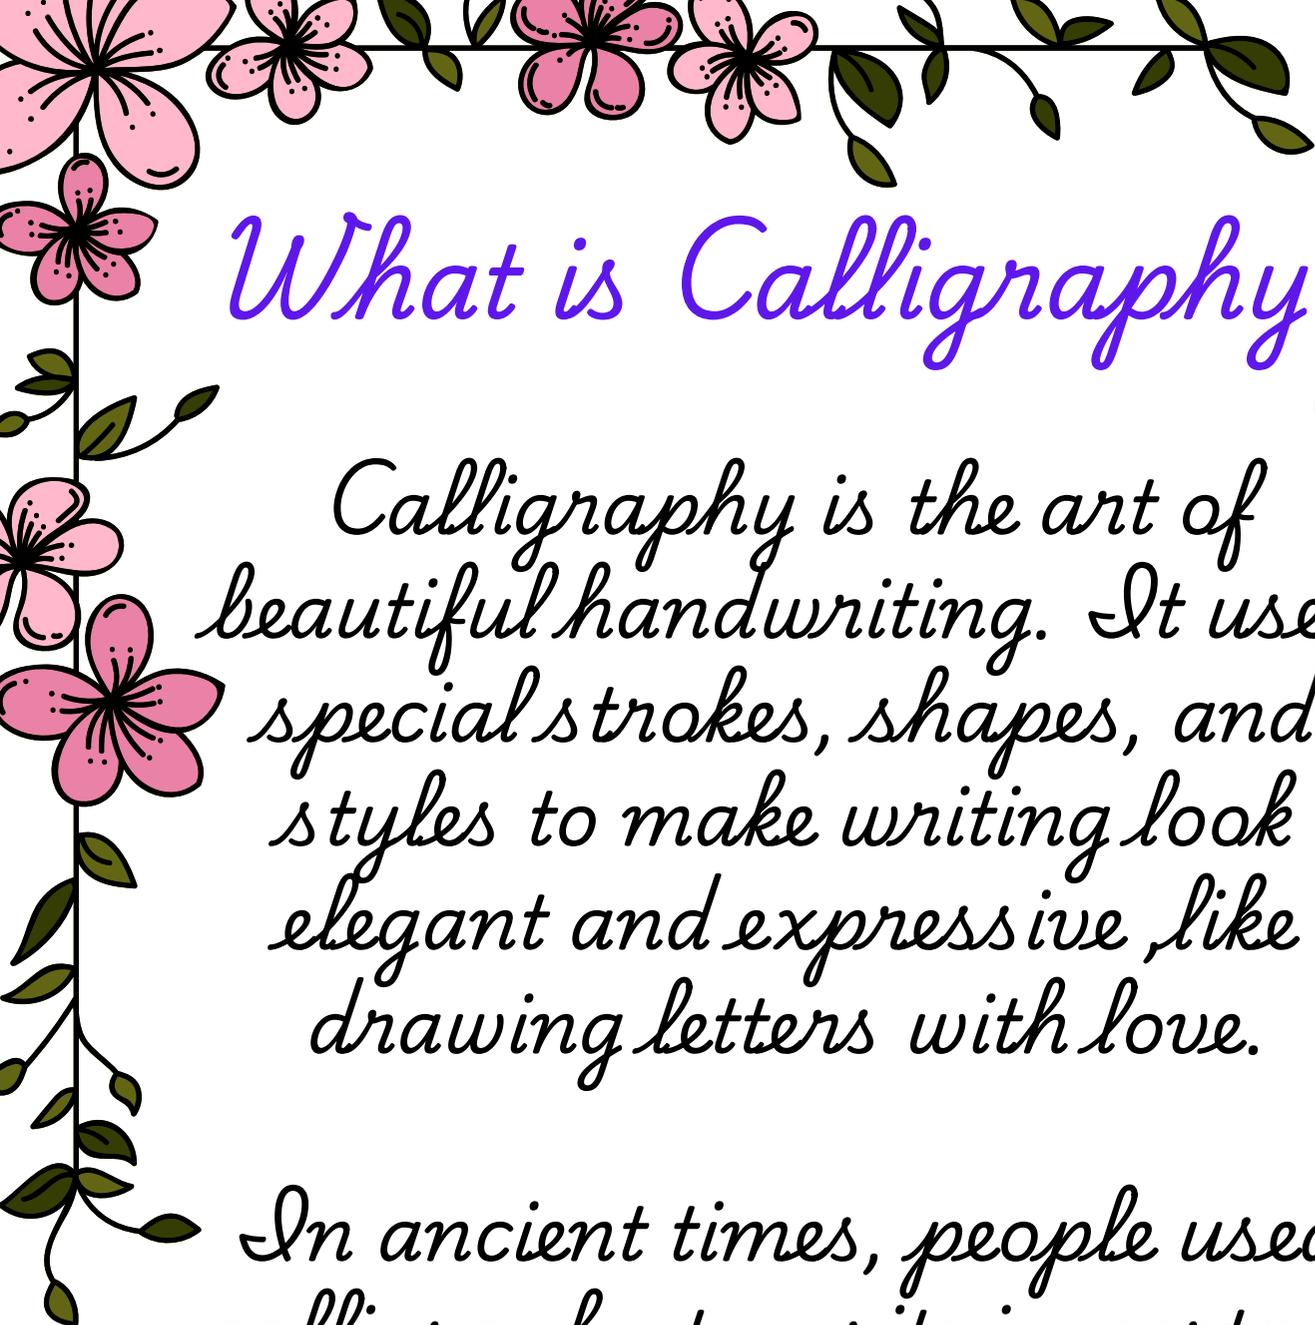

An autobiography is the true life story of a person's life written or narrated by the person himself. It tells the world who you are, special memories, your family, what you love, what you dream of becoming, and all the little things that make you different from the world.

Now it's your turn to become both a young author and a calligrapher.

Space

Write the story of your life in a style that is not only neat but also beautiful and artistic.

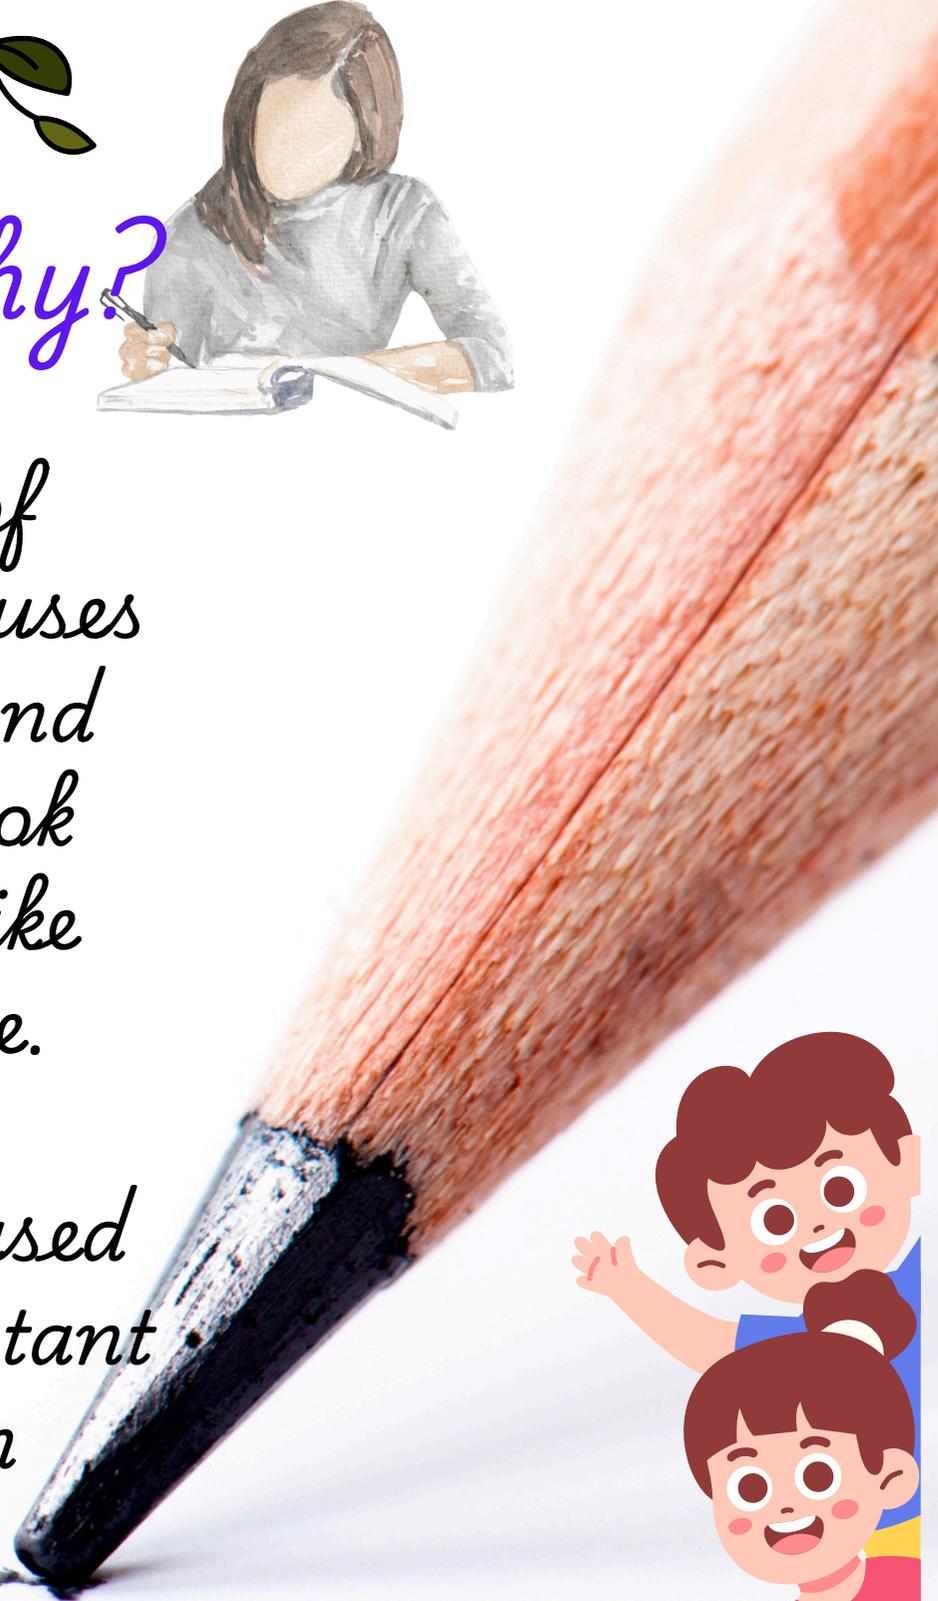

What is Calligraphy?

Calligraphy is the art of beautiful handwriting. It uses special strokes, shapes, and styles to make writing look elegant and expressive, like drawing letters with love.

In ancient times, people used calligraphy to write important letters, scrolls, and even royal messages.

Today, it's a way to slow down, express creativity, and make writing more joyful.

Chapter 1

Nine months of Adventure

Once upon a time, I lived in the most royal castle of the world and that was my mother's womb. It charged no rent from me, was warm, and the food was delivered to me at no extra cost. But one day, I decided it was time to move out and meet everyone!"

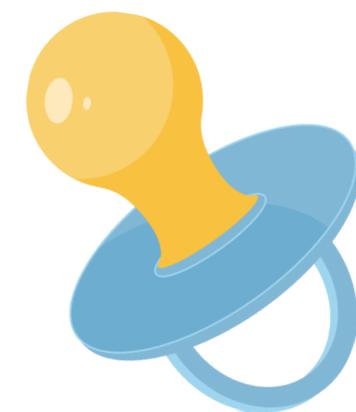

Chapter 2

From Castle to Cradle

The day I left my royal castle was the day I first saw the world. Bright lights made me blink, new sounds filled my ears, and many smiling faces surrounded me. My parents held me close, as if I were the greatest treasure in the kingdom.

I've often heard the story of my first day, and the pictures make it real on the walls, in albums, and hidden like treasures in the almira. In them, I'm wrapped in my first blanket, holding my very first toy and ready to begin my journey.
